

Sapphire

Sapphire – Main features:

- ✓ High dynamics and precision in automated 3D cutting of metal sheets, pipes and profiles
- ✓ Cutting metal sheets up to 200 mm thickness
- ✓ An extensive database of predefined cutting parameters
- ✓ Possibility to increase the length of the work area
- ✓ Equipped with Hypertherm® True Hole™ certificate and Kjellberg® Contour Cut™ technology

Sapphire

Model	Sapphire
Drives	Servo AC
Cutting width	2.000 – 7.000 mm
Basic working length	Any lenght from 1.500 mm
Positioning speed	25.000 mm/min
Cutting thickness	Up to 200 mm
Cutting quality	EN ISO 9013
Positioning accuracy	EN 28206
Repeat accuracy	EN 28206
Safety module	EN 13850
Working table height	740-760 mm
